

Opening – RESEARCH INTERN

WASHINGTON | CORE
A GLOBAL CONSULTING & RESEARCH FIRM

© Washington CORE

Looking for a different kind of DC internship experience? Washington CORE, L.L.C., is an independent consulting and research firm based in Bethesda, MD that provides strategic analysis and advisory services to a global array of public and private clients. We have 20-year experience working on projects ranging from public policy research to communications campaigns to corporate advisories in a diverse range of industries. As a small business we know that it only takes a few talented individuals to make a global difference, and we're looking for interns who are interested in honing their research skills on real world problems in a fast paced environment. If you're interested, contact us using the info below.

Primary Duties

- **Research** – Conduct online research as well as interviews with experts in various fields via phone and in-person meetings
- **Participate** – Attend and write reports on congressional hearings, think tank seminars, and trade association conferences
- **Write** – Summarize research findings and produce in-depth reports
- **Brief** – Brief research & interview findings to team members
- **Coordinate** – Assist project teams with project logistics, project execution & management

TO APPLY

- Please send your resume with a cover letter to jobs@wcore.com
- The application process involves a two-hour test to assess research and writing skills.
- If you have any questions, please call us at (301) 654-2915 x120
